After clicking "Create new account" you will be taken to Moodle's privacy notice page. Read through the privacy notice, then click "Next" on the bottom left-hand corner. Do the same thing for the Cookie Policy page. You will then be taken to a Consent page, if you agree to the terms click "I agree" to both the Moodlecloud policies and then click "Next". You will be brought to a page where you can create a username and password. Once everything is filled in, click "Create my new account".

The screenshot shows the 'New account' registration page for PAMF (Phragmites Adaptive Management Framework). The page has a header with the PAMF logo and name. Below the header, the title 'New account' is displayed. There are two main sections: 'Choose your username and password' and 'More details'. The 'Choose your username and password' section contains fields for 'Username' and 'Password', both marked with a red exclamation point icon. The 'More details' section contains fields for 'Email address', 'Email (again)', 'First name', 'Last name', 'City/town', and 'Country'. The 'Country' field is a dropdown menu currently set to 'United States'. At the bottom of the form, there are two buttons: 'Create my new account' (in blue) and 'Cancel' (in grey). A note at the bottom of the form states: 'There are required fields in this form marked !'.

After clicking “Create my new account”, Moodle will send you an email to confirm your email address. Open the email and click the link provided in the email confirming your registration. You will then be taken to a new page (see below).

Click the “Courses” button to proceed. You will then be taken to your new Moodle Course Overview page (like the one seen below). At this point, you will have no courses in your Course overview section. To add the training course, click the PAMF Moodle Site tab (circled in red).

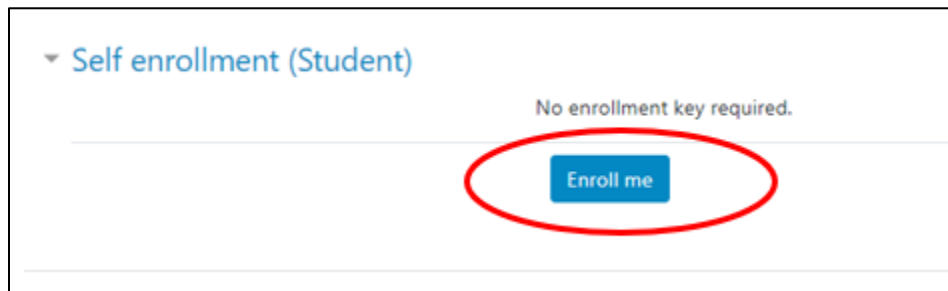

From there you will be directed to a page that lists your available courses. Click “PAMF's Active Adaptive Management Program (AAMP) Participant Training.”

Important! Please note that there are two other PAMF Moodle courses, “PAMF Participant Training” and “Refresher: An overview of PAMF.” These are for non-grant recipients, and do not fulfill the AAMP grant training requirements.

On the new page (see below), you will click “Enroll me”. This will bring you to the page where you can start your training!

[PAMF's Active Adaptive Management Program \(AAMP\) Participant Training ➔](#)

If you are an Active Adaptive Management Program (AAMP) grant recipient, be sure to take our AAMP Participant Training course. This short self-guided course will take you through all aspects of the PAMF/AAMP program and prepare you for the 2024/25 grant cycle.
